Badminton/Basketball/Boot Wiper Notes

- 1 Badminton posts are supplied in sets of two posts and two bases, nets sold separately
- 2 All Badminton posts do not protrude into the court as specified in BS EN 1509:2008
- 3 Sockets and floor plugs require professional installation
- 4 Badminton club training/schools post uprights have a button clip mechanism to securely attach upright to base
- 5 Badminton and Basketball goals are sold in pairs but ½ sets can be purchased
i.e. 1 goal only
- 6 If purchasing spare steel backboards, these can be drilled to suit other manufacturers posts (POA)
- 7 Please note that the boot wiper brushes are a consumable item and will wear over time. Replacements are available to purchase separately
- 8 All spare parts available for purchase

Steel posts are zinc phosphated & aluminium posts are iron phosphated (unless otherwise stated), then finished with a baked on polyester powder coated finish that provides a very tough scratch resistant finish.

All posts MUST be assembled as per instructions supplied and work must be carried out by a sufficient number of competent persons. Appropriate personal protective equipment (PPE) must be worn at all times.

When tall and/or heavy equipment is being erected it is recommended that scaffolding and/or heavy lifting equipment is used. The correct tools for the job must be used at all times.

All posts and nets require regular maintenance, chips or scratches to paintwork MUST be treated to prevent corrosion occurring at these points.

Fixings, joints, and the point where posts enter sockets are all areas which are most likely to rust, they should be examined by a responsible person and a record log kept of all inspections.

The operator of the equipment has a responsibility to maintain equipment in perfect working order. To do so will require positive action. Please refer to assembly and maintenance instructions provided.
